# Voter Registration Drive Quick Guide

votemate makes registering voters easy. At [votemate.us](votemate.us), you can
1. Print your state's voter registration form
2. Register people to vote
3. Check if people are registered to vote

For absentee ballot state guides go to [vote.org/absentee-ballot](vote.org/absentee-ballot).

## 1. Print Registration Forms

- Select your state*
- Click the "Register" button
- Print multiple double-sided registration PDFs.

The PDF contains
- Deadline for mail-in registration
- Pre-filled mailing address
- Example registration form

The registration forms are from the [national voter registration form](national voter registration form).

*NH and WY have same day registration instead of the national form. ND has no voter registration.

Email [help@votemate.us](help@votemate.us) if you have any questions.

## 2. Register People

You can register people in person at the drive, or you can give people registration forms for later. You can sign them up for email reminders at [votemate.us/reminders](votemate.us/reminders) so they don't forget.

## On-Site Registration
- Provide pens and paper forms
- Have people fill out forms in person
- Mail all of the forms to the address on your state's PDF

The election reminders include
- A link to find their polling place
- A link to what is a valid ID
- Reminders a week before, 3 days, day, and day of

## Off-Site Registration

Ideally, you should register people on-site. However, if they want to register later, you can give them a PDF to take home.

The registration reminders include
- A link to the state registration PDF
- Reminders a week before, 3 days, day, and day of

## 3. Check Voter Registration

You can check if someone is registered to vote at [votemate.us](votemate.us).

# We hope this helps. Good luck!

Email [help@votemate.us](help@votemate.us) if you have any questions.
